Expertise, from start to finish.

What sets us apart is not what we do, but how we do it.

Northmarq is an investor’s strategic partner for navigating opportunities in the build-to-rent space. At the start of every engagement, we form a unique team consisting of an advisory group leader, a debt and equity leader, and a local market advisor to tailor asset-specific strategies. Our fully-integrated approach ensures each opportunity is explored, receives thoughtful analysis, and delivers actionable recommendations. It’s a structure that successfully pairs granular market expertise with national experience. The result is a team of institutional quality with a personalized touch, found only at Northmarq.

Our difference.

Brokerage

Maximizing value in acquisitions and dispositions is what we do best.

Capital

A full-service solution for your capital needs, all under one roof.

Advisory

Providing expert opinions and insights beyond a single transaction.

Looking beyond a single transaction, Northmarq's Build-to-Rent Advisory Group is intentionally structured for owners and developers to engage one firm throughout the life cycle of every investment.

OUR DIFFERENCE

More transactions,
more markets,
more experience.

The newest product
category isn't new to us.

No commercial real estate company can match our experience or breadth of knowledge in the BTR business. During the past five years, we have devoted resources to industry-leading research, custom financial modeling, and cutting-edge marketing tailored specifically to the BTR product type.

These investments have yielded results. We have brokered and financed dozens of BTR transactions across the United States since 2018. Additionally, Northmarq has ranked among the industry's top tier of investment sales and debt and equity providers in each of the past five years.
