OUR DIFFERENCE

Matching communities with the right buyer at the right time

NORTHMARQ

With access to buyers, sellers, and more than 750 capital and equity partners, you can rely on us to find you the right opportunity—and to maximize its potential.

Our years of experience in the MHC sector have allowed our team to build a proprietary database of more than 10,000 investors, public and private REITs, developers, operators, and lenders. As we tap into this extensive network, our clients can be confident that their communities will receive targeted marketing exposure resulting in a successful transaction.

Affordable housing and healthy yields

Manufactured housing is an emerging—and socially essential—asset class that will continue to gain traction in the coming years.

The research organization, The Urban Institute, has identified MHCs as a key component in an overall strategy to alleviate housing shortages in the United States, and investors looking to diversify their commercial real estate portfolios should consider MHC assets.

From start to finish, Northmarq has the platform and the professionals to assist you with everything from listing an existing asset for sale, identifying a new community to purchase, and securing the most favorable financing options. As a direct lender, our team offers financing solutions through Fannie Mae and Freddie Mac, and we have closed more than \$9 billion in

loans with federal Agencies.

Additionally, our in-house loan servicing team will partner with you for the life of your loan. Northmarq also represents nearly 100 life insurance companies and investment advisors through correspondent agreements. Our long-standing relationships with some of the largest capital sources in the country ensure the best outcome for each of our clients.

We combine all these areas of expertise to provide our clients with a unified transaction platform that minimizes surprises and protects the value of your investment.

Industry-leading capital markets resource invested in your success

As a company built on the founding principles of integrity, we work hard to make every transaction successful.

What started as a small residential mortgage company 60 years ago has grown into a leading, national firm capable of supporting commercial real estate debt, equity, investment sales, loan servicing, and fund management across every type of multifamily and commercial asset class.

Based on strong values and integrity, our culture attracts the best minds in the industry. We empower our teams to put

clients first and deliver creative and innovative solutions that drive value.

We built our platform to be agile, with a nationwide network of experts and advisors across deeply connected offices leveraging best-in-class technology to stay ahead of industry trends. The result is a collaborative, unified team working to support you at every stage of your transaction.

MHC research you can trust.

Northmarq offers robust research on market trends, transactions, and investment opportunities for MHCs, ensuring our clients have timely and relevant information to make the best possible transaction decisions.

Our quarterly MHC research report examines the economic drivers and fundamentals of the sector, including occupancy rates, rent trends, and time series analysis. We also track national, regional, and local investment trends, including sales velocity, pricing, and cap rate trends.

Whether you currently own MHC assets or are just discovering this growing sector, we invite you to partner with Northmarq for all your investment needs.
